

# SEED SHED

Quality Seeds, Competitive Prices

## Welcome

### To the Seed Shed

Ecological Restoration is the process of assisting the recovery of an ecosystem that is no longer in its original sustainable condition. Here at the Seed Shed, our team of seed specialists sort, process and quality control a wide range of Australian native seeds to supply restoration projects across Australia helping recover the diversity & beauty of the world around us.

## Australian Native Seed Suppliers

Rehabilitation projects require carefully selected, tested, quality controlled seeds to get the best results from initial planting. Here at the Seed Shed, we work to the Seed Accreditation guidelines from the Revegetation industry Association of WA to ensure we provide the most reliable, quality seeds available.

Whatever the size of your project, from extensive mine site rehabilitation to small council garden restoration, you'll find our statewide network of experienced seed pickers and laboratory standard seed processing equipment provide the very best range of quality seeds for your work.

Our seeds are carefully handled and pass through a rigorous selection & testing process, bulk seeds are then stored in laminated bags filled with carbon dioxide to eliminate insect predation & reduce metabolic activity ensuring they reach you in perfect condition. Just one more way we aim to supply the very best in native seed supplies.

For rehabilitation & nursery seed supplies, call us

Tel: (08) 9732 1152

From large scale mine site rehabilitation to garden nursery supplies, Seed Shed provide a wide range of quality, certified Australian native seeds in commercial quantities at competitive prices. Whatever your next project, call us first for the very best in service and reliability - Seed Shed ~ *Quality Seeds, Competitive Prices*

## *Terms & Conditions*

### Seed Shed Terms and Conditions

Catalogue prices are in Australian Dollars and are GST exclusive.

Our minimum order is \$5 per species. Orders under \$30 incur an additional handling fee of \$10. Postage is an additional cost payable by the customer. All seed is sent via Australia Post unless otherwise specified

Bulk discounts apply to order amounts of 250g or 1000 seeds per species. Contact us for pricing details for your order.

All prices are subject to change without notification. If an order has already been placed the customer will be notified of change of costs prior to sending the seed.

Payment may be made via Electronic funds transfer (EFT), Cheque or Paypal

Most seeds are sold per gram but some are sold per seed, ie Banksia Dryandra and Xylomelum. If you are unsure please ask for verification.

Payment must be received in full prior to sending seed for first time customers, after this the customer may ask to set up an account. Account customer terms are net 14 days of receipt of the seed.

### Non Warranty

We give every care to ensure the seeds are fresh and true to label, but we give no warranty, express or implied as to the productiveness or description of any seed we sell and will not be responsible for the resultant crop. These terms are accepted when an order is placed.

### International Orders.

Accounts must be settled prior to seed being sent. Payment forms are; Paypal, Bank transfer, Bank cheque (A\$ ).

Cost of postage is payable by the customer. Parcels are sent via Express Courier International unless otherwise specified. International orders incur a 10% surcharge for the additional processing time required.

Please check your country's importation requirements as the customer is liable for fulfilling all importation regulations. Many countries require an Import Permit and Phytosanitary certificate to pass quarantine entry into the country. You may wish to use the following link to find out what your country's requirements are; <http://micor.agriculture.gov.au/Plants/Pages/default.aspx> The customer is responsible for ensuring all the country's documentation is complete prior to sending. Any delays or additional costs for refused parcels are at the cost of the customer. Checking with your local authority is the best way to ensure all requirements have been completed.

The Phytosanitary certificate is generally at a minimum cost of A\$300 per parcel, dependant on the number of items and may take 3-4 weeks to process.
